Our Training & Experience

Since each client is unique, our training is based on best practices of home health nursing services related to a myriad of injuries.

Achieve Services provides professional nursing services for both **Brain Injury** and **Spinal Cord Injury** clients. Our programs are models in their respective fields.

Our caregivers are trained using our best known techniques and methods in providing professional nursing services for catastrophically injured clients.

Our process is simple. Once a client is referred to us, we assess the client's needs. We assemble a professional nursing team with the mission to help the client reach his or her goals, and assist with the program of care to help the client maximize improvement.

Our Approach

We work to meet the needs of the following:

1. Work-Related Injured Clients who will benefit from working with nursing professionals with plan goals
2. Clients who need a **Catastrophic Injury** program of rehabilitation
3. Clients who experience **Short Term** nursing needs that require Certified Nursing Assistance
4. Full assist clients with **Brain Injuries** who will benefit from a team approach
5. Full Assist clients with **Spinal Cord Injuries** who will benefit from a team approach

Our Team

When additional services are needed to facilitate client recovery, promote independence or maintenance after inpatient or outpatient rehabilitation services, Achieve Services provides reliable and qualified nurses.

Our team consists of the following:

Registered Nurses, Licensed Practical Nurses and Certified Nursing Assistants. Our seasoned professionals are trained to manage patient care. Our nurses are responsible for overall implementation of care plan and coordination and maintenance of the patient care needs.

Ask about our program **CareBuddy**,™ our professionally trained caregivers who work with clients with unique service needs.

With creativity, compassion, and a well-conceived care plan, we help clients achieve their goals.
